

VALENTINA PANIC

FRONT END ENGINEER

valentina.panic87@gmail.com | 410-330-2791 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Front End Engineer with 5 years of production React experience in cybersecurity SaaS. Key contributor to migrating an enterprise platform from Semantic UI to Tailwind CSS, built a 20+ component design system from scratch, and shipped 360+ features across security tooling products. Daily practitioner of AI-assisted development with Cursor and Claude.

EXPERIENCE

Front End Engineer | StackHawk | Remote Aug 2022 – Present

UI Modernization & Design System

- Key contributor to full-application migration from Semantic UI to Tailwind CSS, establishing new styling patterns adopted by the engineering team
- Built 20+ reusable components for Tweety Bird design system with Storybook documentation, standardizing UI patterns and accelerating feature development
- Contributed to React 19 upgrade and state management migration to Nanostores, modernizing the codebase for improved performance and DX

Feature Delivery

- Shipped 360+ features and fixes including Attack Surface Management, API Discovery, GitHub integration flows, and application management interfaces
- Built custom D3.js data visualizations (donut charts, security metrics dashboards) used by enterprise customers for vulnerability reporting
- Developed integration UIs connecting 6+ third-party tools (Snyk, Jira, Slack, Vanta, Azure DevOps, Bitbucket), expanding platform reach for enterprise accounts
- Implemented responsive mobile-first designs across the entire platform, improving accessibility on all device sizes

AI-Assisted Development

- Integrated Cursor and Claude into daily workflow for code generation, refactoring, test writing, and debugging, increasing development velocity
- Created custom Cursor rules and reusable prompts to enforce code quality standards and maintain codebase consistency

Junior Front End Engineer | StackHawk | Remote Apr 2021 – Aug 2022

- Developed UI features using React, TypeScript, and Semantic UI for an application security platform serving developer teams
- Participated in code reviews, sprint planning, and architectural discussions, ramping to independent feature delivery within 6 months

General Manager | El Chingon Mexican Bistro | Denver, CO Dec 2013 – Jan 2020

- Managed 20-person team and daily operations for a 100-seat restaurant, building skills in leadership, stakeholder communication, and high-pressure decision-making

PROJECT

PrepCode | Interview prep app for frontend engineers prep-code.vercel.app

- Built a full-stack interview prep tool featuring system design questions, interactive quizzes, and timed component coding challenges
- Built with React, TypeScript, Tailwind CSS, and the Anthropic API for AI-powered feedback and evaluation

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, HTML/CSS, Tailwind CSS, D3.js, Storybook, Nanostores

Tools: Git/GitHub, Figma, Jira, CI/CD, Jest, Cursor, Claude

Practices: Component architecture, design systems, responsive design, Agile/Scrum, AI-assisted development

EDUCATION

Full-Stack Software Engineering Program | Flatiron School 2020 – 2021

Bachelor in Management (cum laude) | University of Novi Sad, Serbia 2007 – 2012

Languages: Serbian (fluent), English (fluent), German (basic)
